

OLYMPUS READY-TO-PLAY

instructions

With great power comes great responsibility: each god had a great deal of work to do, both on Mount Olympus and Earth.

We displayed the Identity Cards of some of the busiest mythical characters of Greek mythology. Through these modern-like IDs, the ancient gods will look more familiar to us. Of course, most of the characters' attributes originated in the myths that the ancient Greeks used to tell about their deities. Therefore, a short biography (bio) was needed to account for the most newsworthy and meaningful stories. Be aware: some of them are highly solemn; others are beautifully sad; others yet are funny and relatable...

How to play

Cut-out, colour, and compose divine accessories and clothing, and help the gods find their special animals. Discover the fashion described in Classical mythology tales: you can either take inspiration from the Identity Cards or look up further myths involving the gods. You will discover new objects and animals and combine entirely new outfits. And who's to say: you may make up your very own myths.

- 1. Choose a mythical character and read his/her ID**
- 2. Print out the female or male figure, the clothing, the attributes relevant to the character**
- 3. Cut them out**
- 4. Apply the accessories on the figure (stick them directly or apply glue on the little square attachments provided with some attributes)**
- 5. Colour the figures**
- 6. Collect them all**
