Additional information

Contents & Purpose

Simple stories about a town named Legionum (made of lego) in which the inhabitants of the town try to track down a mysterious jewel thief.

At one point they visit Pompeii, using the Sydney University Lego reconstruction of Pompeii, housed in the Nicholson Museum.

The stories use conversational Latin to introduce beginning Latin students to the language. While mythological stories do not feature much, employs popular culture references, jokes, puns, to myths in storylines, and in twitter and [facebook](#).
