### Additional information

#### Origin/Cultural Background/Dating

Date and place of collection: Unknown. However, Clyde Ford states in the Preface to his book that "the myths in this book come from numerous sources, principally from the published transcriptions and translations of missionaries, ethnographers, and anthropologists" (p. xiii).

Cultural Background\*: Ashanti

The Ashanti tribe of central Ghana is the largest tribe in the West African rainforest. They are fierce fighters who are known by their slogan, "If I go forward I die, If I go backward I die, Better go forward and die" (see source [here](#), accessed: July 9, 2019). The Ashantis place more value on the mother's clan than the father's and their religion is a mixture of spiritual and supernatural powers; with the belief in fairies, monsters, and the strongly held belief that plants, animals and trees have souls. Communal living is practiced by every member of the Ashanti tribe.

#### Summary

The full text of this myth is found in: *The Hero with an African Face: Mythic Wisdom of Traditional Africa* by Clyde W. Ford, in the United States and Canada by Bantam Books, 1999, pp. 21–27). This is only a brief summary of the story. The full text of the myth and others can be read in the book cited above.

Kwasi Benefo, a young Asante man in Ghana, by dint of hard work has acquired a lot of wealth but is unable to find a wife and have children. Finally, after a long search all over the village, he finds a lovely wife. They quickly get married and begin to enjoy a blissful matrimony. Unfortunately, Kwasi's joy is blighted by the sudden death of his wife, who had not even been pregnant for him. Heart-broken, Benefo buys

an *amoasie*\* and buries her. Then after a long period of mourning, he is comforted by his family and persuaded to take another wife. He assents but decides to get a new wife from a different village hoping to avoid the calamity that had befallen him in his own village. But the same fate befalls him. His relatives try and are unable to comfort him this time around. The family of the deceased wife offer him one of their daughters again, to replace the dead one. He accepts and just before he starts enjoying this new marriage, death snatches his new wife away. He buries her with the same ritual and items as the others. After a long period of mourning, his family succeeds in convincing him to take a fourth wife. She lasts a bit longer and even bears him a son. But one day, news comes of the death of the fourth wife to Kwasi in the farm: a tree had fallen on her as she returned from a journey. Utterly grief-stricken, Kwasi takes his son to his mother's people, leaves him there and retires to some distant forest. After several years, he leaves the forest and starts a new normal life in another village, living all by himself. Then he has a strange dream directing him to *Asamanda* the land of the dead where the spirits of his dead wives reside. Upon waking, he embarks on the journey, passing through a dark forest to the bank of a deep river. As he thinks of how to cross, an old woman Amokye appears at the far end of the river bearing a brass pan containing beads and *amoasies* - handed to her by the recently dead before crossing the river to the land of the dead. She asks Kwasi what has brought him to these distant parts and Kwasi tells her he has come to look for his dead wives. She tells him he cannot be allowed to cross the river alive, so Kwasi promises to stay there until death. Moved to pity, she lowers the tides of the river and Kwasi is able to cross. Kwasi's wives come to him with food and water but he can only hear their voices since they are spirits. They promise to show themselves to him when he dies. They promise to help him regain his life again in the land of the living. Kwasi then falls into a deep sleep and later wakes in the forest on the other side of the river. He returns home, gets married and lives a long and happy life with his new wife.

## Analysis

Sometimes, misfortune befalls humans without any just cause. It is

believes that such unfortunate events happen to test our commitments, and expose us to some other realities like the afterlife. Kwasi Benefo loses his wives not because he was evil but probably because he had been destined to experience the underworld, through his firmness and love, before ever making his final departure to it. This journey into the underworld is often provoked either by a quest for an object of desire, the quest for knowledge, or the quest for divine power. The phenomenon of journeying to the underworld is known in many mythologies and folktales.

The myth is an illustration of the test of love, patience and endurance, which are virtues encouraged in young people.
