Additional information

Summary

This of Hercules begins with his birth as "Palaemon" and Hera's initial attempt on his life by sending the two serpents to his cradle. After accidentally killing his teacher, Palaemon's mother sends him away. Although he thinks of himself as a monster, Palaemon goes on to make quite a name for himself as a strong warrior, not a monster, and was very happy until Hera tricks him into killing his family. This is when he becomes "Hercules", Hera's glory, and is sent to serve King Eurystheus and perform the Twelve Labours. The illustrations in this book are very realistic and reminiscent of Greek statuary.

Analysis

The story is told in first-person narration, explaining more about Hercules' inner thoughts and feelings than about the Labours themselves. It runs through the Labours in five short pages, simply naming the task and moving on, highlighting instead the collective importance of Hercules' journey as a man and not the specific details of each Labour and how he succeeded. It shows that Hercules' glory does not stem only from completing the Labours successfully, but in conquering his own passions (triggered by Hera's involvement), and that this is what elevates him to a god-like status.
