Summary

This is the first book in the author's Hero trilogy. The story of *Chasing Odysseus* starts in the final days of the Trojan War. Its heroes are three teenaged brothers (Machaon, Cadmus and Lycon) and their younger sister (Hero). Their adoptive father, Agelaus, is a leader of the Herdsmen, a fiercely independent community, allied to the Trojans, who live on the slopes of Mt Ida. The Herdsmen, traditional protectors of the Trojan people, have been secretly supplying the Trojans with food through the long years of the siege; when Troy falls they enter the city by secret tunnels to rescue the survivors, smuggling Aeneas, his son, and many Trojan citizens to safety. In the early chapters of the book, Gentill's young heroes witness the events recounted in *Aeneid* 2, before the faithful Herdsmen are wrongly accused by Paris' surviving son, Scamandrios, of betraying Troy to the Greeks and Agelaus is killed as a traitor. Their father's shameful death inspires his children to a daring undertaking which provides the structure of the rest of the novel: they embark upon a long voyage in a magical Phaeacian ship given to them by the god Pan, chasing the Greek hero Odysseus in hopes of persuading him to reveal who really betrayed Troy, and clearing the Herdsmen's name.

The four children follow the hero on his circuitous journey towards Ithaca via the landmarks of his long trip home in the *Odyssey*, observing and often participating in his adventures. They visit Ismarus in the land of the Cicones, the land of the Lotus-eaters, the land of the Cyclopes, the palace of Aeolus, the country of the Laestrygonians, Circe's island Aeaëa, the Underworld, the Sirens, Scylla and Charybdis, the island of the Sun, Calypso's palace, and lastly Phaeacia. Throughout their journey, they become actors in the events of Homer's epic, and Gentill's narrative provides alternative explanations for the events of the *Odyssey*, frequently questioning Odysseus' heroic status as it does so. For example, it is Lycon who persuades a reluctant Odysseus to remove his companions from the land of the Lotus-eaters, promising that the deed will bring the hero the glory he craves, while Machaon provides Calypso with a plausible story to help her get rid of her unwelcome guest (in Gentill's story, it is not Odysseus who yearns to continue his journey home but the put-upon nymph who is desperate to have him leave her in peace). Finally, in Phaeacia, with the connivance of Nausicaa and Demodocus, Odysseus is tricked into revealing how Troy fell, boasting about subverting the Trojan Scamandrios and taking full credit for the stratagem of the Trojan

horse and subsequent Greek victory. At the end of the novel, Hero and her brothers sail back to their home, though Machaon leaves his heart behind with the princess Nausicaa.

Analysis

The novels of the Hero Trilogy use the possibilities offered by inserting teenage characters into the iconic myths of ancient Greece and Rome to advance a new perspective on these well-known stories and their heroes. Through reworking the *Odyssey* in *Chasing Odysseus*, and making space in the story for her child heroes, Gentill offers an alternative reading of the epic, in which the hero Odysseus appears as vain-glorious, spiteful, treacherous and selfish. The pervasive undermining of Odysseus' heroic mystique reflects early twenty-first century suspicions of powerful men and the stories they tell. At the same time, the novel foregrounds the voices of those who are traditionally voiceless and powerless (children, women, the defeated and displaced), allowing Gentill to explore the consequences of the exploits of epic's ancient heroes and to show a sensitive sympathy for their victims, human and otherwise. Her sceptical and practically-minded young heroes also give her space to criticise – or provide a rational explanation for – some of the apparent impossibilities of ancient epic. The determined realism and humanity of Hero and her brothers reflect some characteristic modern Australian attitudes, suggesting that true heroes are irreverent, humorous, intelligent and compassionate, who support and protect those who suffer at the hands of the brawny, violent and arrogant supermen of ancient epic.
