## Additional information

### Summary

The book begins by explaining that Hermes is known for helping the thieves, for serving as the messenger of the Olympians, for befriending heroes, and for travelling to the underworld. Zeus fell in love with the nymph Maia, who gave birth in a cave. While Maia was asleep, we are told, baby Hermes stepped out of his cradle and started wandering in the forest. Inventive Hermes made a lyre out of a turtle's tortoiseshell. Soon, tired of singing, Hermes became hungry. In search for food, he walked up north until he reached a flock of cattle in Pieria. He stole fifty cattle, leading them south to Arcadia. Cleverly, he made the cattle walk backwards and wiped off their traces on the ground. Back in Arcadia, Hermes killed two oxen. He sacrificed one to the gods and ate the other. Then, he re-entered his mother's cave and fell asleep in her arms. Furious Apollo, because the stolen cattle were his, came to the cave. Maia did not believe that her one-day old baby could have been capable of stealing. Apollo smacked Hermes, his little baby-brother. We are then told that Hermes presented the lyre to Apollo, and Apollo, happy with music making, forgot all about the stealing. Zeus and Hades both liked Hermes, and invited him to Mount Olympus and to the Underworld respectively. So, in a split second, Hermes became a man. He got wings to fly with, and served as messenger, patron of travellers and merchants, and escort of dead souls on their journey to Hades (*psychopompos*).

The book closes by offering contextual information about "one of the most likeable gods of the ancient Greeks", including his role to protect the athletes. In the last two pages, children are asked to match text and image. The text covers six additional mythic episodes that feature Hermes.

### Analysis

The book presents the god Hermes as a playful, clever, and misbehaving baby. Hermes' childhood is foregrounded in ancient literature, especially in the *Homeric Hymn to Hermes*.\* The stealing of Apollo's cattle is an act that can take place only outside the realm of civilized society. The emphasis on family ties throughout the book, specifically the expressions of mother-to-son and brother-to-brother affection, seem to mediate Hermes' unfair actions. A key message appears to emerge. Older individuals (Maia, Apollo, Zeus, and Hades)

can tolerate and forgive naughtiness, not least because Hermes meant well and is utterly entertaining and cute. For sure, Hermes is likeable, despite being mischievous. Kapatsoulia depicts him as a blond baby with his nappy on. Maia and Apollo are also blond, and this may strengthen visually the family connection between all three. Their blonderness resulted from sharing genetic material. A question may arise as follows. How can Apollo be angry at Hermes, when his baby-brother looks like Apollo in miniature? Even adult Hermes bears resemblance to Apollo. With the exception of his winged sandals and hat, which stand for his identifying attributes in ancient art, Hermes wears a white chiton and has curly blond hair like Apollo.

Hermes is depicted as adorable also for his quick thinking, which might remind readers of cunning Odysseus in the Homeric epics. At least three instances glorify the charm of ingenuity. First, Hermes constructs a musical instrument. The convex tortoiseshell can reflect well the sound of vibrating strings. The fact that there are seven strings to this instrument in the text and the illustration is an accurate representation, as this was the canonical number of the *chelys-lyra* in ancient Greece. Secondly, Hermes misleads others as to the direction in which the oxen walked. Judging from the animals' trails, one would expect them to have walked south-north, and not from Pieria in northern Greece to Arcadia in the Peloponnese. Third, Hermes uses bribery to escape punishment, in this case Apollo's smacking. Hermes, like a good negotiator, knows how to manipulate an older god, also through the apparently magical effect of music.

Indeed, the role of music is emphasised in the book. When he plays the lyre, Hermes sings like an angel, as we read in the text. The anachronistic reference to the Christian era is pertinent, not least because Hermes, with his blond curls, resembles an angel. Apollo's playing is even more impactful, and has an effect on Apollo. We read that the melody from Apollo's lyre spreads like light, and the god is so happy that he kisses Hermes and talks highly of music, having completely forgotten the theft of the oxen. Music-making, especially by the god of music *par excellence*, has a tremendously calming effect. Apollo, nonetheless, has been carried away by the sweetness of music to such an extent that justice for stealing, a universally condemnable act, is no longer required. There appears to be a warning here. Music can have a side-effect, that of forgiveness. Hence, it is not in Apollo's character to forgive, but his willingness to overlook Hermes' misconduct is the consequence of a sweet melody. The gods, like the

mortals, can be deceived. Of relevance here could be the Sirens' song in the Odyssey, and, in fact, another book by Mandilaras and Kapatsoulia that covers Odysseus' adventures and the episode with the Sirens.\*\*

Although elements in the illustrations, such as nappies and euro notes, resonate with contemporary consumer culture, the story, on the whole, is about the supernatural qualities of a baby. Hermes is too young to make a lyre, to lead the cattle across Greece (in one night), and to eat an ox all by himself. These extraordinary acts earn him divine status and the profoundly supernatural ability to fly. Hermes' mobility, however, is for the benefit of others, as he serves the gods and diverse groups of mortals, including thieves. The god is ever-present, which may account for his popularity. Hermes' many functions are reflected well in the book title, which reads "the god for all chores" [my translation]. The title may remind young and adult readers of comedy actor Thanassis Veggos, an extremely popular actor who usually impersonated hyperactive characters in black-and-white films of the 1960s, the golden era of Greek cinema.\*\*\* More specifically, the title seems to play with the title of a film from that period, starring Giorgos Kostantinou and other popular actors but not Veggos, which is entitled "The man for all chores" [Άνθρωπος για όλες τις δουλειές] (1966).\*\*\*\*
