Nikolaï Osipov , 1751 - 1799 (Author)

Nikolaï Osipov (Николай Осипов) was a Russian writer, poet and translator. He was born in Saint Petersburg. As he stated himself, his parents were civil servants. Osipov received his primary education at home, then he studied languages (French and German), architecture and mathematics in a private school. In 1769 he became a soldier of the famous Izmaïlovskii Regiment. During their-military service, Osipov and his colleagues edited a periodical handwritten magazine, where some of his poems, prose and translations from French and German appeared. In 1781 Osipov retired. He continued writing and translating, he also edited his own magazine. After 1790 he worked as a translator for The Secret Office. Nikolaï Osipov left a large literary heritage, but the *Virgil's Aeneid Travestied Inside Out* is the best known of his works.

Additional information

Summary

Virgil's Aeneid Travestied Inside Out by N. Osipov is remarkably close to Vergil's *Aeneid* in plot. Every part (*song*) of the poem is preceded by a short summary of what the part narrates. After the fall of Troy, a fleet led by Aeneas ("a daring young man, / And the most skillful fellow") begins a long voyage to find a new home. Juno wants to disturb them, she asks Aeolus to set a storm, which will destroy the Trojan fleet. Neptune, angry with Juno's intervention into his domain, calms the sea. Aeneas and his people take shelter on the coast of North Africa. There Aeneas meets his mother, Venus, that presents herself as a Gypsy woman. She inspires him to go to Dido, the queen of Carthage. Venus also tells Cupid to replace Ascanius, Aeneas little son. This way Cupid could awake Dido's love feelings to brave and handsome Aeneas. Aeneas recounts the episodes of Trojan war and the fall of the city. The second part of his narrative depicts their voyage towards the unknown homeland. They have seen many miracles on their way. As Aeneas finishes his story, Dido realizes that she has fallen in love with her guest. Aeneas is in love too, but Jupiter sends Mercury to remind Aeneas of his duty, so he wants to depart from the city of Carthage and leave Dido, whose heart is broken. Dido commits suicide. The Trojan fleet reaches Sicily, where Aeneas receives a vision. His father tells him to go to the underworld. Aeneas, guided by Cumaean Sibyl, descends there, passes by Charon and Cerberus and speaks to the shadow of his father. When he comes back from the underworld, the Trojans head to Latium, where Aeneas courts Lavinia, the daughter of King Latinus. Aeneas wants to avoid war, but Lavinia is asked to be married to Turnus, the ruler of the Rutuli people, that's why Aeneas decides to ask Rutuli's enemies for help.

Analysis

This mock-epic poem was influenced by a German poem *Abenteuer des frommen Helden Aeneas* by Aloys Blumauer (1784–1788; published in 1872) and by Paul Scarron's *Virgile travesty* (1648–1653). Nikolai Osipov wrote only four parts, the narration ends before the war in Latium begins. The fifth and the sixth parts of the Russian *Aeneid* were written by Aleksandr Kotelnitskii later and published in 1802–1808. Nikolai Osipov changed the rhythm of the narrative by creating the illusion of a folk tale and highlighting comical situations. More generally, Russian *Aeneid* owes its genesis to the fact that this period

emphasized the translation of Greek and Latin literature into Russian (reading of the original texts was obligatory for school students). *The Aeneid* was translated in the 1770s by Vasilij Petrov (a personal translator of Catherine the Great), who used a very artificial, old-fashioned language. In this context, the burlesque poems could be interpreted as a free adaptation of Virgil in colloquial language. The usage of low folk language for the translation of the poem intensified the satiric effect.

Osipov's main goal was to create a dialogue with Virgil, so he dares to call Virgil by name and to make him responsible for his own verses. As in poetry competition (or lessons at school, which were also obligatory at that time), Osipov tries to write 'a better version' of the *Aeneid*, emulating the Roman poet. The work by Nikolai Osipov (not the later parts written by Aleksandr Kotelnitskii) became the inspiration and the basis for the Ukrainian and Belarusian texts.
