Additional information

Summary

Narrated in blank verse, a style appropriate for legends, as the author claims, the myth relates the life of origin of Ifè*, originally told by the highest authorities of the Yoruba land to a stranger. At the beginning there was Arámfè the God of Thunder and Father of the Gods, who reigned in the realm of heaven. He summoned his sons and narrated to them how he created all the bounties in heaven and gave them eternal peace. His sons questioned him about their abilities; he outlined what each had and instructed them to create the Yoruba land. Orísha** had to create the world and Odúwa*** had to create man and rule over him. Arámfè gave Orísha a bag of Wisdom, full of arts and gave Odúwa the kingship and younger sons were to accompany them with chorus, dance, worship and the crafts. As they left heaven to the world, Odúwa made Orísha drunk and stole his bag. When Odúwa arrived at the edge of heaven, he cast the sand on the sea, and that was the origin of the world of conflicts. Years of darkness passed till the sun came and the sons vanished to the calm hills and life was like the one in times of the gods. Dum'la**** was charged to be the father of mourners, protector of shrines and messenger of the gods on Earth.

* According to Yoruba cosmogony, Ifè is the place of creation. Today, it has survived as the hub of Yoruba traditional religion and culture.

** Creator of the world. Son of Arámfè.

*** King of men. Son of Arámfè.

**** The ancestor of the Órnís of Ifè.

Analysis

There are a plethora of myths on creation around the world and this myth is a part of one of such, which relates the creation of the world in Yoruba cosmogony. Many of these myths hold a Supreme Being or god as the creator of the world. These gods created other smaller gods or assigned their children to control other aspects of creation. The gods also assigned emissaries or mediators between them and humans as is the role of Dum'la in the story. These mediators also had to be the protector of the shrines where the gods were to be worshipped.

The myth also foregrounds the desire of a god to be at the helm, which desire brings about rivalry and conflict. This desire is manifested by Oduwa, who took Orísha's bag of Wisdom so that he can dominate the world. In all, this portion of the myth exposes us to how the Yoruba land came into being, and the making of its cosmogony.

Addenda

Although these myths were collected so many years ago, they are still being told to children and young adults in traditional African communities. And like all other oral narratives, several versions of the same story may be available in different places.
